Vitamin B5 Producers and Vitamin B5 Market Trend

Vitamin B5, also known as pantothenic acid, is a water-soluble vitamin from the B group of vitamins. It is naturally present in foods, added to foods, and available as a supplement. Animal liver, kidney, muscle, brain and egg yolk, alfalfa, yeast, bran, and green leafy plants are rich in pantothenic acid. The synthesis of Vitamin B5 is divided into chemical and microbial enzymatic dismantling methods.

The global vitamin B5 market size was 20,000 tons in 2017, growing to 25,000 tons in 2022, with a CAGR of 4.6% from 2017 to 2022. The global vitamin B5 market size is expected to grow to 30,000 tons in 2027, with a CAGR of 3.7% from 2022 to 2027.

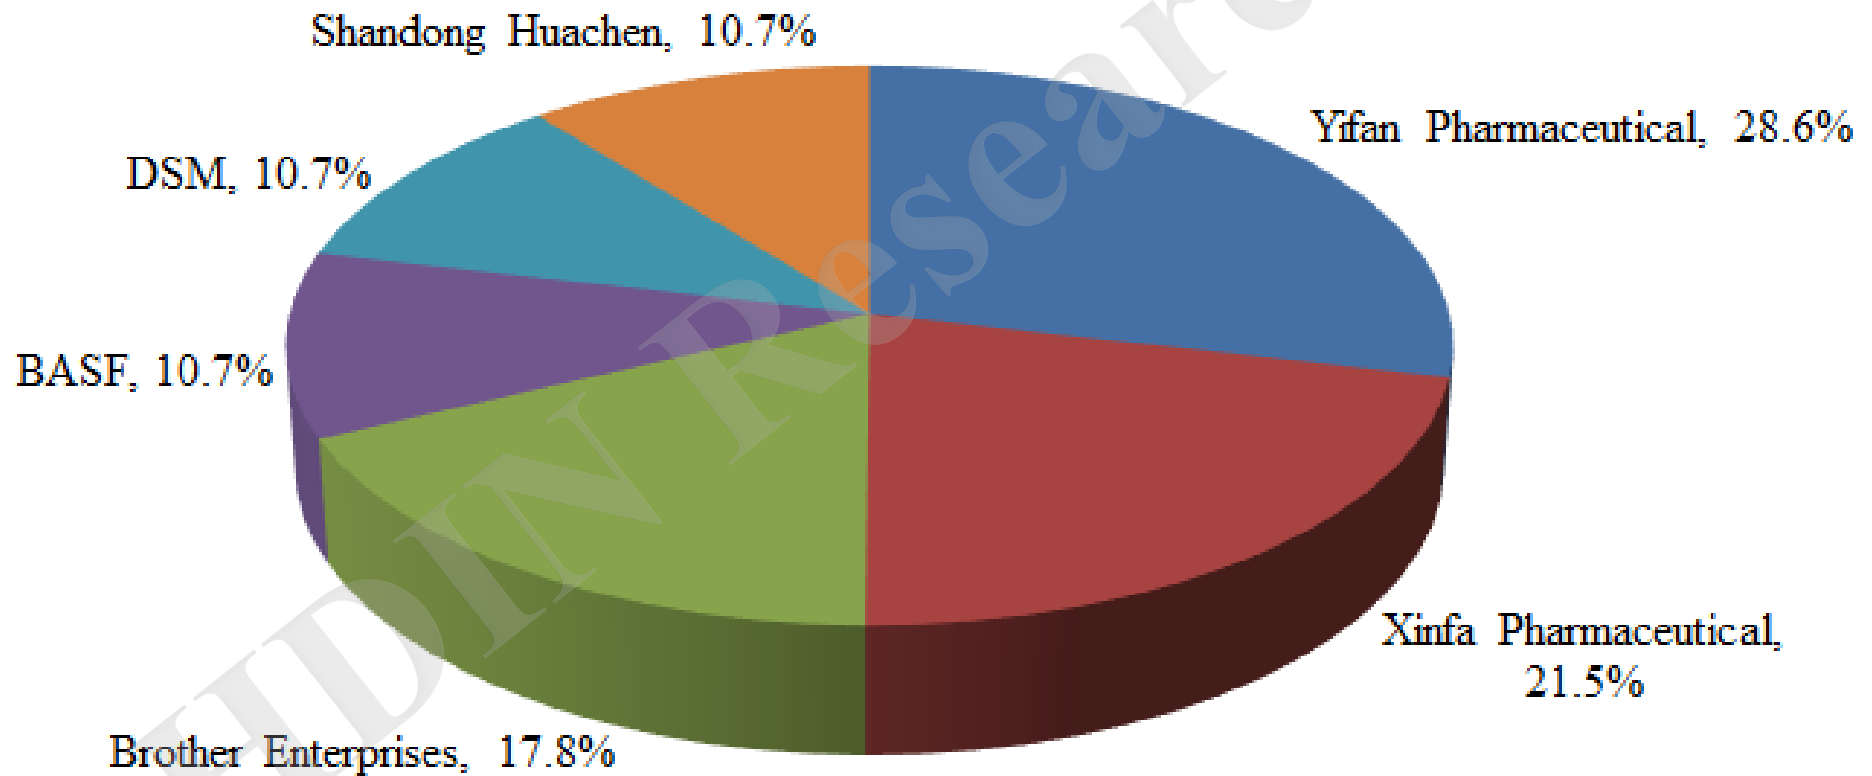

Global Vitamin B5 Market Size (1,000 Tons) and CAGR
